Commissioners' Report

1935-1936

I. *Sidewalks.*

This spring the State constructed a granite breakwater between the Fish Houses and Bath Houses. The State plans to build a concrete sidewalk inside this breakwater next spring to take the place of the old sidewalk destroyed by the construction work. The District built a short section of concrete sidewalk next to the bath houses to afford access to the beach from the new parking area.

The plank walk over the stones at Bass Beach has reached the age where many repairs are necessary. The crest of the rocks has become so narrow that in places masonry work was necessary to support the walk here.

II. *Policing.*

With the approval of the State highway officials, the District erected signs restricting parking in the rear of the Bath Houses to Bath House patrons only, and prohibiting picnicking on the bathing beach in front of the Bath Houses.

The District again employed Herbert S. Knowles as watchman during the winter, and divided with the Town the expense of police service at the Music Festival.

III. *Street Lights.*

The District installed a modern street light last fall at the corner of Willow Avenue and the Ocean Boulevard, near the Boynton's. The Town has been paying for our street light service.

IV. *Drainage and Mosquito Control.*

Cedar Swamp was sprayed thoroughly early this spring by Lean Knowles, Jr. The marsh has been sprayed about every ten days, at first by Leon Knowles, Jr., and later by Leon Knowles, and the drainage ditches have been cleaned out. This work has been very effective in doing away with the mosquitoes.

V. *Fire Apparatus*

The District's fire extinguishers and one hose reel have been kept ready for use in the Fire House opposite the Fowler Cottages, and the other hose reel in ex-Governor Fuller's garage.

VI. *Fire Hydrants.*

The Public Service Commission expects to render a decision on water rates this fall. In the meantime the water company has refused to accept payments from us at the rate of \$50 a hydrant, but has started billing us at the rate of \$100 a hydrant for this year and for prior years in which payments were accepted from us at the \$50 rate. This has created a large contingent liability against the District, for which we have funds in reserve, although we consider the claim unwarranted.

VII. *District Tax Rate.*

The District tax rate for the current year was \$1.65 on \$1000 property valuation less 5% discount for payment by July 5th.

WILLIAM P. FOWLER,
MARION STOTT,
PHILIP N. HOBSON,
Commissioners.
